Sir:

1. I, John K. Savage, as named inventor, hereby declare that my residence, post office addresses and citizenship are as stated below after my name and I hereby make this supplemental declaration in accordance with 37 CFR 1.175. I believe I am the original, first and sole inventor of the subject matter which is described and claimed in U.S. Patent No. 6,0265,372 (hereinafter "the '372 patent"), issued on February 15, 2000, and subsequent Reissue Application Serial No. 10/077,364 (hereinafter "the '364 application"), filed February 15, 2002, for which we now solicit a broadening continuation patent.

2. Neither the '372 patent nor the '364 application have been assigned.

3. I hereby state that I have reviewed and understand the contents of the '372 patent, including the claims.

4. I hereby state that I have reviewed and understand the contents of the '364 reissue application, including the claims.

5. I hereby state that I have reviewed and understand the contents of the pending continuation reissue application, including all amendments filed in this application up to and including the supplemental amendment filed herewith.

6. I believe the '372 patent to be wholly or partly inoperative or invalid by reason of our claiming less than we had a right to claim in the '372 patent. I claimed less than we had a right to claim for at least the reason that claims 1-13 of the '372 patent each recited a table of desired quantities, a table of cooking times, information about desired quantities, etc. need not be stored in tabular form, but rather the information need only be accessible by the processor, as disclosed in the '372 patent at least at Col. 3, lines 13-23.

7. All errors being corrected in this continuing reissue application up to the time of filing of this oath or declaration arose without any deceptive intention on my part.

8. I acknowledge a duty to disclose information of which I am aware and which is material to patentability of this continuation reissue application in accordance with 37 C.F.R. § 1.56.

9. I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the

United States Code and that such willful false statements may jeopardize the validity of this reissue application or any reissue patent issued thereon.
